

## **Powermaster Quality Assurance & Technical Support**

At Powermaster, every product manufactured in the USA undergoes 100% testing before it leaves our facility. This comprehensive testing process ensures each product performs as designed and meets our strict quality standards.

If you are experiencing an issue with your Powermaster product, please leave the product installed on the vehicle and contact Powermaster Technical Support for assistance before removing or returning it. Our technicians can often diagnose and resolve issues quickly while the product remains installed.

### **Technical Support Contact Information:**

- \* Toll-Free: (800) 862-7223
- \* Toll-Free: (800) 323-5102
- \* Direct: (630) 957-4019
- \* Email: [tech@powermastermotorsports.com](mailto:tech@powermastermotorsports.com)

### **When emailing, please include:**

- \* A detailed description of the issue
- \* Photos, if applicable
- \* Your phone number for follow-up assistance

If the issue cannot be resolved after working with Powermaster Technical Support while the product is still installed on the vehicle, the product may be eligible for return through Speedway Motors, provided it remains within the warranty period. Powermaster's warranty is one year from the date of purchase on all street rod components, and 90 days for any component use for an off road or race application

### **Return Requirements:**

- \* Original packaging, including top and bottom protective foam
- \* All included hardware (nuts, bolts, shims, etc.)

\* Original instructions and documentation

### **Out-of-Warranty Products**

If your product is no longer covered by warranty, please contact Powermaster directly at (800) 862-7223 for information regarding their repair and return program for out-of-warranty products.
