

Section 1. Product and Company Identification

Product Identifier Lucas Slick Mist Ceramic Speed Wax, #11294

Product Use Description: Milky White, turbid liquid with Minty odor for use as a gloss enhancer for automobile surfaces

Manufacturer or suppliers' details

Lucas Oil Products, Inc.
3199 Harrison Way NW
Corydon, IN 47112 USA

Emergency Number: (800) 255-3924 (ChemTel)
Customer Service: (812) 738-1147
Business Fax: (812) 734-0466

Section 2. Hazards Identification

GHS Classification

Sensitization, Skin : Category 1B

Eye Irritation : Category 2B

GHS Label Elements

Hazard Pictograms

Hazard Word **Warning**

Hazard Statements

May cause an allergic skin reaction
Causes eye irritation

Precautionary Statements

P337+313: If eye irritation persists: Get medical advice/attention

P332+313: If skin irritation occurs: Get medical advice/attention

3. Composition Information on Ingredients

CAS Number	Wt %	Component Name
166736-08-9	<1%	Oxirane, 2-methyl-, poly- mer with oxirane, mono(2- propylheptyl) ether
1954684-31-1	<1%	Heptamethyl glycidyl oxypropyl trisiloxane polymer
Not assigned	<1%	Hexadecyl- aminoethylaminopropyl- polydimethylsiloxane

Amounts specified are typical and do not represent a specification. Remaining components are proprietary, non-hazardous, and/or present at amounts below reportable limits.

4. First Aid Measures

Eye: Immediately flush with water. If any irritation or discomfort occurs, consult physician

Skin: No first aid should be needed. Thoroughly wash the affected area as a precaution.

Inhalation: Inhalation of any liquid should be considered potentially dangerous, consult a physician.

Oral: No first aid should be needed for oral contact. If product is swallowed, consult physician.

Comments: Treat symptomatically.

5. Fire Fighting Measures

Extinguishing Media:

On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO₂), dry chemical or water spray. Water can be used to cool fire exposed containers.

Fire Fighting Measures:

Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

Unusual Fire Hazards:

None.

Hazardous Decomposition Products

Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products: Carbon oxides and traces of incompletely burned carbon compounds. Silicon dioxide. Formaldehyde. Metal oxides.

6. Accidental Release Measures

Observe all personal protection equipment recommendations described in Sections 5 and 8. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.

Clean up remaining materials from spill with suitable absorbant. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard.

Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain federal and state requirements.

7. Handling and Storage

Use with adequate ventilation. Avoid eye contact.

Use reasonable care and store away from oxidizing materials.

8. Exposure Controls and Personal Protection

166736-08-9	Oxirane, 2-methyl-, poly- mer with oxirane,.....	None Listed
	mono(2- propylheptyl) ether.....	
1954684-31-1	Heptamethyl glycidyl oxypropyl trisiloxane.....	None Listed
	polymer.....	
Not assigned	Hexadecyl- aminoethylaminopropyl-.....	
	polydimethylsiloxane.....	

Engineering Controls

Local Ventilation: None should be needed.

General Ventilation: Recommended.

Personal Protective Equipment for Routine Handling

Eyes: Use proper protection - safety glasses as a minimum.

Skin: Washing at mealtime and end of shift is adequate.

Suitable Gloves: No special protection needed.

Inhalation: No respiratory protection should be needed.

Suitable Respirator: None should be needed.

Precautionary Measures: Avoid eye contact. Use reasonable care.

Comments: When heated to temperatures above 150 degrees C in the presence of air, product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard, a known skin and respiratory sensitizer, and an irritant to the eyes, nose, throat, skin, and digestive system.

Safe handling conditions may be maintained by keeping vapor OSHA Permissible Exposure Limit for formaldehyde.

9. Physical and Chemical Properties

Flash Point	None	Upper Flamability Limit	Not Determined
Auto Ignition	Not Determined	Lower Flamability Limit	Not Determined
Physical State	Liquid	Color	Milky White
		Vapor Press	Not Determined
pH	6.8	Specific Gravity	0.98
		Viscosity	2 cSt
Vapor Density (Air=1)	Not Determined	Melting Point °F	28°F
		Odor	Mint
Water Solubility	Dispersable	VOC Content	<1%

10. Stability and Reactivity

Stability Stable

Hazardous Polymerization Not Expected to Occur

Conditions to Avoid	Oxidizing materials can cause a reaction
Hazardous Decomposition Products	When heated to temperatures above 150 degrees C in the presence of air, product can form formaldehyde vapors. Safe handling conditions may be maintained by keeping vapor OSHA Permissible Exposure Limit for formaldehyde.

11. Toxicological Information

No known applicable information

12. Ecological Information

Complete information is not yet available

13. Disposal Considerations

RCRA Hazard Class (40 CFR 261)

When a decision is made to discard this material, as received, is it classified as a hazardous waste? No
State or local laws may impose additional regulatory requirements regarding disposal.

14. Transportation Information

Not subject to DOT. Not regulated

Not subject to IMDG code.

Not subject to IATA regulations

15. Regulatory Information

OSHA Hazards : Moderate skin Irritant

EPCRA - Emergency Planning and Community Right-to-Know

CERCLA Reportable Quantity - This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards : None

SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

California Prop. 65 : This product does not contain any chemicals known to the State of California to

cause cancer, birth, or any other reproductive defects.

16. Other Information Revision Date 6/28/2021

The information and recommendations are offered for the user's consideration and examination, and it is the user's responsibility to satisfy itself that they are suitable and complete for its particular use. If buyer repackages this product, legal counsel should be consulted to insure proper health, safety and other necessary information is included on the container.
